

The background of the entire poster is a dark blue field filled with numerous small, colorful dots in shades of yellow, orange, red, green, and light blue, scattered randomly to resemble stars in a night sky.

INTERWASTE

**There is more microplastic
in the ocean than there are
stars in the Milky Way.**

Think about that for a moment. It's a shocking fact, one that you need to know. Because every member of the Interwaste family is an environmental steward, knowledge about the world of waste and an understanding of its impact is crucial. That's why you have Mindfill. Use it.

**KNOW
WASTE?**

Means yes to more understanding,
better decisions and smarter actions.
