

BUILD YOUR OWN WASTE CONSCIOUS CALENDAR

CALENDAR

Thanks for downloading our exclusive print-your-own calendar! Follow the steps below and get ready to grow your waste knowledge as we journey through a time of waste!

- Print the following page/s at a 100% scale.
- Fold the page in half (use the centre "T's" and dotted lines to guide you).
- Glue the pages as indicated to the one small fold as indicated and push down.
- You will now have your own tent calendar!
- Remember after each month to recycle it once done!

Fold the page in half, then fold along the dotted lines.

Every fold should be backwards, so the artwork stays visible at all times.

Once folded, take some glue and coat this side, placing the other short fold on top.

1 JAN New Year's Day

Interconnected Beginnings

Every new year starts with connection – the link between purpose and possibility. At Interwaste, integrated waste management ensures every material, process, and partnership supports a greater system of recovery. Because lasting change begins when we work as one.

Waste and Water

Water connects every living thing. Our Effluent Treatment Plant returns up to 90% of treated water back into circulation – proof that innovation can restore what nature depends on. When water flows clean, so does life.

21 MAR Human Rights Day

Healthy soil sustains the planet's foundation. Through bioremediation, we use natural processes to heal what's been contaminated – returning balance where waste once disrupted it. Renewal begins below the surface.

1 MAY Workers' Day

Nothing in nature is wasted; everything transforms. Our RDF and WDF facilities convert non-recyclable materials into sustainable fuel – reducing reliance on fossil energy and turning waste into power for progress.

Plastic and oceans

Every choice shapes a chain. Through recycling and early separation, we keep valuable materials in use and plastics out of our oceans. When waste is managed responsibly, the planet breathes easier.

Circular Connections

Progress grows when industries connect. Through our integrated waste management model, we work alongside partners to close loops, reduce landfill reliance, and build a circular economy where every by-product finds new purpose.
